**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose a competitive provider because I don't like Bundle systems. If you can't pay for the entire service, everything gets cut off. I also don't like how they get you in with one low price for 3 months then triple the cost in 90 days. Also ATT has historically had billing issues which made me happily sever my relationship with them.

Sonic is one low cost. I have a special needs child and I attend school and also work on line. I require quality internet service, but can't afford to pay hundreds of dollars to get it.

There should be no price hikes as the economy is not getting better. Many people still suffer financially and require internet access whether you are poor or successful. Sonic's services are reasonable and cost effective.

Also we need to have options. We don't need one huge company. what if their system fails everyone will be without service. not a good idea.

I have telephone service with sonic, included in my service and I love it. With a special child I have to be able to have reasonable services to properly maintain my household and sustain our lives. Sonic is the best.
